

Bilby Blooms Autumn 2024 Plant List

Acacia cultriformis

Large shrub 2mH x 3mW. Grey triangular foliage and masses of golden flower balls in spring. Dry position in sun to part shade. Most draining soils. Long-lived attractive screen plant. Foliage good for floristry.

Acacia fimbriata

Hardy small bushy tree 6mH x 5mW. Weeping narrow foliage fringed with small hairs. Brilliant yellow perfumed ball flowers in spring. Draining soils in sun or filtered shade. Attracts seed-eating birds.

Acacia floribunda

Large shrub to 3mH x 3mW with graceful dense dark green leaves. Scented cream rod flowers in early spring. Grows in a wide range of soils, even clay, likes extra moisture. Dappled shade, part or full sun. Fast growing screen.

Acacia rubida

Tall shrub or small tree 3-5mH x 3-5mW. Red stems and light green foliage, often with divided juvenile leaves present. Profuse yellow ball flowers in spring. Most soils in sun or part shade. Tolerates dryness, very frost hardy.

Anigozanthos 'Orange Cross'

Kangaroo Paw. Vigorous clumping plant 1.2mH x 1.5mW, strappy leaves. Vivid orange flowers late spr & sum. Moist to dry well-drained soils, full to part sun. Recovers from frost damage. Water weekly in dry winter.

Anigozanthos flavidus (Bright Red)

Kangaroo Paw. Vigorous clumping plant to 1mH x 1mW with thick strappy leaves. Tubular vibrant red flowers on 2m stems Nov- Feb. For light to medium soils in partial to full sun. Recovers from frost damage.

Anigozanthos flavidus (Pink)

Kangaroo Paw. Clumping plant to 0.7mH x 0.7mW with thick strappy leaves. Tubular pink flowers on 1m stems in Nov- Feb. For light to medium soils in partial to full sun. Recovers from frost damage.

Banksia baueri

Possum Banksia. Medium shrub 1.5mH x 1.5mW. Large serrated leaves. Very large woolly flowers, which have lemon styles with grey tips, persist for many months. Well drained sunny position. Very ornamental.

Banksia blechnifolia

Creeping plant 0.2-0.4mH x 2mW, horizontal branches, deeply lobed long dark- green leaves. Salmon flowers girt the plant from Sept-Feb. For a sunny site, in draining soil. Drought and frost hardy

Banksia ericifolia (dwarf)

Medium bushy shrub to 1.5mH x 1mW. Bright green linear leaves, cylindrical orange flowers. Hardy screen or hedge plant in most positions with moist well-drained soil. Bird attracting.

Acacia denticulosa

Sand Paper Wattle. Open shrub 1- 4mH. Long bright yellow rod flowers in spring. Grows in light sandy to draining clay soils. Prune to encourage branched habit. Drought hardy, frost tolerant once established.

Acacia flexifolia

Rounded shrub to 1.5mH x 2.5mW larger in open sites. Small narrow slightly bent foliage. Profuse small yellow flowers in late winter. Dry draining spot in full sun or part shade. Accepts extended dry periods. Prune as a low hedge.

Acacia podalyriifolia

Silvery grey tree 6mH x 5mW with rounded foliage. Massed golden flowers from autumn to spring and large grey pods. Moist well-drained or dry soils in sunny position. Prune for bushy habit. Quick growing and decorative. Foliage used for floristry.

Acacia vestita

Beautiful weeping large shrub 3mH x 5mW. Hairy triangular grey-green foliage and golden flowers in winter and spring. Hardy in most soils in partial or full sun. Feature plant or hedge. Recommended.

Anigozanthos 'Yellow Gem'

Kangaroo Paw. Vigorous clumping plant 1- 1.5mH x 1-1.5mW with strap-like leaves. Tall stems of yellow flowers in spring. Requires well-drained soils in full or part sun with protection from heavy frosts.

Anigozanthos flavidus (Green)

Kangaroo Paw. Vigorous clumping plant to 1mH x 1mW with thick strappy leaves. Tubular green flowers on 2m stems in Nov- Feb. For light to medium soils in partial to full sun. Recovers from frost damage.

Austrostipa densiflora

Syn Stipa densiflora. A decorative grass to about 1.5mH. Dense and attractive bronze flower spikes in spring and summer. For dry sites in sun or semi-shade. Feature with rocks or alone.

Banksia baxteri

Birds' Nest Banksia. A dense spreading shrub 3-4mH x 3mW, triangular lobed leaves. Showy lemony flower cones spring- autumn. For well-drained light to heavy soils in partial to full sun. Frost protection when young.

Banksia burdettii

A much branched medium sized shrub to 1.5mH x 1.5mW. Spectacular bright orange flowers are borne at the end of branches. Prefers sandy or well drained acid soils. Drought and frost tolerant when established

Banksia formosa

syn Dryandra formosa Medium shrub 2mH x 2mW. Golden yellow terminal flowers July to Nov. Prefers draining soils in full sun or part sun. Useful screening, bird attracting. Prune for compact shape. Frost hardy. Great Cut Flower.

Bilby Blooms Autumn 2024 Plant List

Banksia marginata

Large shrub to small tree 3-5mH x 2-3mW. Silver backed foliage. Yellow flowers in autumn and winter. Most well-drained positions. Tolerates some shade. Hardy banksia.

Banksia occidentalis

A much branched medium sized shrub to 3mH x 1.5mW, without a lignotuber. Spectacular bright orange/red flowers. Prefers sandy or well drained acid soils. Drought and frost tolerant when established. Light regular prune.

Banksia pilostylis

Bushy small shrub to 1.2mH x 1.5mW with slender toothed leaves. Creamy yellow scented flowers to 12cm in spring/summer. Needs good drainage and full sun with frost protection in its first year.

Banksia speciosa

Showy Banksia. Many branching shrub to 4m. Very long leaves with triangular lobes. Showy lemon cream flower cones spring- autumn. For well-drained light to heavy soils in partial to full sun. Frost protection when young.

Brachychiton rupestris

Bottle Tree. Tree with swollen trunk to 20mH. Compound juvenile leaves and lanceolate adult leaves and small insignificant flowers. Most soils and aspects. Feature plant. Suits a pot, indoor or out.

Callistemon pinifolius (red)

Open medium shrub to 1.5mH x 1.5mW with very narrow sharply pointed leaves. Red flower spikes in summer. Full sun. Hardy and adaptable to most conditions, even poor soils. Prune for shape regularly after flowering.

Chamelaucium 'Paddy's Pink'

Medium shrub 1.5mH x 1.5mW with fine light green leaves. Crowded blueish pink flowers late spring, early summer. Light to medium draining soils in sun or part shade. Great cut flower. Drought and frost hardy.

Correa 'Firebird'

Upright shrub 1-2mH x 1.5mW. Oval hairy leaves. Orange-red flowers with beige throat Mch-Sept. Likes draining light to heavy soils. Favours dappled shade to partial sun, will tolerate full sun & full shade.

Correa 'Redex'

Small shrub 1mH x .8m. Interesting small rounded leaves, pink/red and yellow flowers throughout cooler months. Hardy plant in draining soils in full or filtered sun. Bird plant.

Crinum flaccidum Darling Lily

Vigourously growing lily once the season warms with large white clustered scented flowers on a robust stem to 0.6m mid to late Summer. Edible bulbuls occur after flowering, Winter dormant. Prefers sunny clay position

Banksia menziesii

Small tree to 6-7mH. Narrow toothed leaves. Silvery-red flowers with golden styles in spring. Needs well-drained light to medium soil with added lime. Full or part sun. Difficult in Canberra. Specialist plant. Try in large tub.

Banksia petiolaris

A spreading prostrate shrub 0.3-0.6mH x 2- 3mW, horizontal branches, large wavy toothed leaves. Flowerheads purple becoming yellow Aug-March girt the plant. For well-drained soils in dappled shade, partial to full sun.

Banksia robur

Swamp Banksia. Medium shrub to 2mH x 2mW. Attractive reddish new growth. Stiff oaklike leaves, greenish flowers ageing to yellow all year. Sunny position. Adapts to a variety of sites and soils. Likes extra water but will withstand quite dry periods.

Banksia undata var. splendens

syn Dryandra praemorsa. Bushy medium shrub 2-4mH x 2-4mW with long, toothed foliage. Yellow or pink flowers in spring. Prefers well-drained soil in dappled shade or part sun. Useful screening plant. Bird attracting.

Callistemon pachyphyllus

Medium shrub 1.5mH x 1.5mW with thick dull green oblong leaves. Bright red flower spikes in spring and autumn. Will accept most soils and bad drainage but needs full sun. Prune heavily after flowering. Extremely hardy.

Calotis cuneifolia

Low spreading daisy to 0.3mH x 0.5mW with wedge-shaped leaves and hairy branches. Mauve flowers most of year, small burr fruits. Hardy in most soils. Partial to full sun. Prune old stems in late winter. Rockery plant.

Correa 'Dusky Bells'

Small dense shrub 0.6mH x 2mW with oval leaves. Dusky pink bells in autumn and winter. For heavy and clay soils in moist or dry conditions in full sun or shade. Long flowering, attracts birds. Prune regularly.

Correa 'Kiss me Kate'

Small dense shrub 0.6mH x 2mW with rounded leaves. Pink bells in autumn and winter. For draining clay soils in moist or dry conditions in part sun or shade. Long flowering, attracts birds. Prune regularly.

Correa 'White Tips'

Shrub 1.5mH x 1.5mW . Very pretty pink bells with white tips in autumn and winter. For draining soils in moist or dry conditions in full sun or shade. Attracts birds. Prune regularly.

Crowea saligna

Small shrub 1.5mH x 1.5mW with elliptic leaves. Pink star-like flowers in autumn and winter, and sporadic. Part sun in most relatively well-drained soils, if well mulched. Ornamental plant. Good cut flower. Semi shaded position best.

Derwentia arenaria

Small to medium shrub 0.6-1.5mH x 1- 2mW with narrow leaves. Pale to deep violet-blue flowers are profuse and conspicuous from Sept-May. For moderately well-drained acidic soils in sun or semi-shade. Rare plant.

Dianella 'Uralla'

Mini Flax Lily. Tufted plant with flax- like leaves, suckering to form clumps to 1mW. Bright blue flowers on branched stems, bright blue fruits. Very hardy. Ideal garden plant especially for rockeries, great border plant.

Dianella tasmanica

Flax Lily. Tufted plant with thick strap leaves to 1mH. Blue flowers in long spikes spring-summer followed by stunning purple berries. Wide range of soils including heavy clay. Use throughout the garden as a contrast plant. Very hardy.

Eremophila glabra 'Belalla Gold'

Prostrate plant 0.2mH x 2mW with bright green leaves, abundant yellow flowers from autumn to spring. Bird & bee attractant. Drought and frost tolerant. For draining soils in full or part sun.

Eremophila longifolia

Weeping upright shrub to 3mH x 3mW. Hairy reddish flowers are seen throughout the year, particularly spring to summer. Will grow in alkaline clay soils to well drained acid. Can sucker, drought and frost hardy, fire retardant.

Eremophila maculata 'Pink Passion'

Shrub 1mH x 1mW. Small leaves, tubular rich pink flowers in winter-spring. Best in heavier soils with drainage in part to full sun. Provides nectar for birds. Frost and very drought hardy.

Eremophila maculata x racemosa

Medium upright shrub to 1.5mH. Yellow then orange buds open to pink flowers with a white fringe inside the throat of the flower. For a wide range of soils in full to part sun. Prune to shape. Bird attractant.

Eucalyptus 'Delicious'

Mallee 1.5m-3mH x 1-3mW. This small ornamental eucalypt has beautiful huge red coloured buds and red flowers throughout the year. Drought and frost tolerant on non water logging soils. Prune hard to rejuvenate.

Eucalyptus 'Jaq Joy'

Mallee to 4.5mH. *E. youngiana* x *E. macrocarpa*. Bark smooth and orange brown with pale blue green leaves. Spectacular clusters of large salmon red flowers. Tolerates dryness & frost. Needs reasonable drainage. **Bred by Bilby Blooms**

Eucalyptus 'Silver Princess'

Eucalyptus caesia subsp. *magna*. Mallee 8-15mH x 3-5mW, decorative bark, pendulous branches, glaucous foliage & large red flowers June-Nov. For fairly well-drained acid to slightly alkaline soils, sunny site. Frost protection when young.

Derwentia perfoliata

Perennial to 0.6mH x 1mW with arching stems of grey green ovate leaves. Terminal sprays of bright blue flowers in summer. Full sun to part shade. Very hardy. Prune off old stems late winter.

Dianella revoluta

Spreading Flax Lily. Tufted plant with flax- like leaves, suckering to form clumps to 2.5mW. Bright blue flowers on branched stems, bright blue fruits. Very hardy. Ideal garden plant esp. for rockeries.

Eremophila 'Passionate Lady'

Large shrub to 3mH x 3mW (growth is restricted by pruning). Linear bright- green leaves, crimson flowers with dark spotted throat Sept-May. For a hot, sunny site on heavy soils. Frost and drought tolerant.

Eremophila glabra (low grey)

Small plant to 0.5mH to 1.5mW with grey leaves. Masses of yellow flowers from winter to summer and sporadic. For most draining soils in full to part sun. Drought and frost hardy. Can be pruned hard.

Eremophila maculata 'Aurea'

Vigorous small shrub 0.9mH x 1-2mW with dark green leaves and bright lime-yellow flowers that are well-displayed. Good drainage and sun or semi-shade are best. Will tolerate heavy soils. Responds to pruning.

Eremophila maculata (hot pink)

Small spreading shrub 1mH x 1.5mW with small often sticky leaves and tubular hot pink flowers in winter-spring. For heavier soils with good drainage in part to full sun. Tip prune for bushy growth.

Eremophila maculata x viscida

Medium shrub 2mH x 2mW. Tubular light mauve flowers with dark purple spotted throat in spring and after heavy rain. Bird attractant. Tolerates drought and frost. For draining sites in full sun.

Eucalyptus 'Jaq Gem'

Mallee to 4.5mH. *E. youngiana* x *E. macrocarpa*. Bark smooth and orange brown with pale blue green leaves. Spectacular clusters of large cream/yellow/red flowers. Tolerates dryness & frost. Needs reasonable drainage.

Eucalyptus 'Little Princess'

Mallee to 3mH x 3mW. Decorative bark, upright habit, grey foliage & large pink flowers April- Sept. Draining acid to slightly alkaline soils. Full to part sun. Protect from heavy frost when young. Bred by Bilby Blooms

Eucalyptus cinerea

Argyle Apple. Medium tree 8-15mH x 8-15mW. Attractive glaucous cordate juvenile foliage, and glaucous adult foliage. White flowers Oct-Dec. Adapts to most well-drained soils. Responds to hard pruning and coppicing. Great foliage.

Bilby Blooms Autumn 2024 Plant List

Eucalyptus eximia nana

Yellow Bloodwood. A tree to 5mH x 3mW with a dense canopy and large bluish adult leaves. Showy cream flowers follow very attractive green buds in spring. For draining acidic soils. Not for frost hollows.

Eucalyptus pyriformis (red)

Pear-fruited Mallee. Mallee 2-5mH x 3- 4mW, smooth bark & pale to mid green leaves. Red flowers with grey buds. Draining soils in a hot site. Frost protect when young. Good in a pot.

Eucalyptus sideroxylon 'Pretty Pink'

Tree 3-8mH x 2-4-W, ornamental blue green foliage, black bark & attractive pink flowers May-Oct. For a wide range of soils conditions. Frost, drought and salt tolerant.

Eucalyptus woodwardii

Lemon flowered gum. Small tree or mallee 6 - 15mH. Attractive smooth cream bark. Pretty bright yellow flowers June-Nov. For most soils in a warm sunny spot. Drought hardy, protect from frost when young.

Goodenia varia

Small shrub 0.1-0.6mH x 0.5-1.5mW with oblong, usually toothed, foliage. Yellow flowers are sporadic throughout the year. Likes well-drained soils in sun. Responds to pruning. Good for hanging baskets, or embankments

Grevillea 'Carol Ann'

Decumbent spreading shrub to 2mW. Dense non prickly foliage with an occasional upright branch. Dark red flowers are borne most of the year. For sun or semi-shade in most draining soils. Frost and drought hardy. Good for birds.

Grevillea 'Poorinda Rondeau'

Medium shrub 1.5-2mH x 1.5-3mW, with shiny dark-green oval leaves. Showy, profuse bright pinkish-red flowers July-Nov. For most well-drained acid soils in sun. Hardy to most frosts. Prune lightly for good shape.

Grevillea arenaria

Dense stiff shrub 1.5-3mH x 2-3mW. Grey- green foliage and red, pink, green, yellow or orange spider flowers over a long period. Hardy in all aspects and soils except wet. Attractive to birds.

Grevillea johnsonii

Erect shrub to 4mH x 3mW with fine pinnate foliage. Large red waxy flowers in winter and spring. Needs draining soil in sun, part sun or shade. Showy large plant rarely seen in cultivation.

Grevillea semperflorens

An early hybrid Grevillea to 2mH x 2mW. Pink and apricot flowers a seen most of the year on arching branches of grey green leaves. Tolerates acid neutral clay or loam soils. Frost and drought hardy

Eucalyptus macrocarpa

Sprawling mallee shrub 1-4mH x 1-4mW, with opposite large silvery leaves. The glaucous buds are followed by showy pink- red flowers (10cm) throughout the year. Accepts most draining soils. Frost and drought tolerant

Eucalyptus pyriformis x macrocarpa

Mallee 2-3mH x 3- 4mW, smooth bark & pale to mid green leaves. Large red flowers. Draining soils in a sunny site. Not for frost hollows. Good in a pot. Prune hard to keep compact.

Eucalyptus staigeriana

Lemon scented Ironbark. Slender upright small eucalypt to 3mH. Crushed leaves give a sweet lemon smell, can be used in cooking/teas. Accepts most soils to heavy loams. Frost, wind and drought tolerant.

Eucalyptus youngiana

Mallee 1.5m-4mH x 1-3mW. This small ornamental eucalypt is known for the beautiful huge buds and red flowers throughout the year. Drought and frost tolerant on non water logging soils. Prune hard to rejuvenate.

Grevillea 'Amethyst'

Decorative small shrub to 1mH with fine prickly foliage. Showy pink flowers in spring & summer. For most soils in sun or part sun. Good for small birds.

Grevillea 'Carpet Queen'

Dense groundcover 0.3-0.6mH x 1-1.8mW, with small deep-green leaves. Yellow/apricot flowers mainly in spring. For well-drained light to medium soils in full or part sun. Give low phosphorus fertilizer in spring. Good bird plant.

Grevillea 'Winter Delight'

Hardy groundcover to 0.3mH x 1.5mW. Lovely small soft grey leaves with clusters of red and cream flowers in winter and spring. Tolerates clay and well drained soils. Drought and frost hardy.

Grevillea beadleana

Dense spreading shrub 1.5mH x 2.5mW with soft, grey-green, much divided leaves. Dark-red toothbrush flowers most of year. Most well-drained soils in sun or dappled shade. Screen or hedge, attracts birds.

Grevillea juniperina 'Molonglo'

Low spreading shrub 0.5mH x 3mW with small narrow prickly foliage. Apricot flowers in spring and summer. Good drainage in most soils and full sun for best flowering. Vigorous grower. Good ground cover. Bird attracting.

Grevillea x gaudichaudii

Vigorous ground cover 0.1mH x 3mW. Oak- like leaves, dark red toothbrush flowers in late spring and summer. Reliable in well- drained sunny position. Recommended.

Bilby Blooms Autumn 2024 Plant List

Hakea 'Double Gate'

H. francisiana x bucculenta. Erect shrub 3mH x 3mW with long leaves. Attractive spikes of hot pink flowers in winter to spring. Dry sunny site in light-med soils with good drainage. Prune when young for windy sites. Attracts birds. Drought, lime and frost hardy.

Hakea 'Morgan'

H. bucculenta x francisiana. Erect shrub 3mH x 3mW with long leaves. Attractive hot pink flower spikes winter - spring. Dry sunny site in draining light-med soils. Prune when young in windy sites. Attracts birds. Drought, lime and frost hardy.

Hakea coriacea

Erect shrub 5mH x 3mW with long leaves. Attractive spikes of cream & red flowers in spring. Dry spot in light-med soils with good drainage. Sun or part shade. Drought and frost hardy when established.

Hakea macraeana

Large shrub 4mH x 3.5mW. Soft needle like foliage. Cream perfumed flowers in leaf axils in spring. Most draining soils in full sun to semi-shade. Excellent hardy screen plant. Rare and endangered.

Hakea nitida

A medium shrub to 2mH x 2mW. Firm broad leaves have sharp teeth which help make this plant a good screener. Masses of perfumed white flowers occur in late winter. Full to partial sun in draining soils. Frost hardy

Hakea orthorrhyncha

Rounded shrub to 1.5-2.5mH x 1-3mW with long needle like leaves. Spectacular red flowers on older wood in winter and spring. Tolerant of a wide range of soils, moist or dry, in full or filtered sun. Showy in flower.

Hakea purpurea

Medium shrub 1.5-2mH x 1.5-2mW with narrow leaves. Red, purple-red or pinkish flowers in winter and spring. Best in well- drained soils in sun. Tolerant of drought and moderately heavy frosts. Bird attracting.

Hardenbergia violacea (pink)

Groundcover or trailing plant to 1.5m-2mW with lance-shaped leaves. Masses of pink flowers in spring. Full sun to partly shaded well-drained position. May be pruned hard. Some frost damage. Not for frost hollows.

Hovea lanceolata

Open shrub 2mH x 1mW. Narrow leaves. Blue pea flowers in late winter or spring. Likes excellent drainage, cool root run and some overhead shade. Light pruning beneficial.

Isopogon anethifolius

Medium shrub 1-2.5mH x 1-2.5mW. Divided leaves with very narrow leaflets. Yellow globe-shaped flowers July-Dec. Most acidic soils suitable, not waterlogged. Some shade. Tip prune young plants. Good cut flower.

Hakea 'Molly Lace'

H. francisiana x coriacea. Erect shrub 2.5mH x 2.5mW with long grey leaves. Attractive spikes of pretty pink flowers in winter to spring. Dry sunny site in light-med soils with good drainage. Prune when young for windy sites. Attracts birds. Drought, lime and frost hardy.

Hakea 'Tessa'

H. multilineata x grammatophylla A variable shrub to 2.5mH, with narrow grey-green leaves to 16cm long Showy crimson pink scented flowers appear in the leaf axils from March to August. Draining soils in a sunny to part shaded site. Drought and frost hardy.

Hakea cyclocarpa

Shrub 1-2.5mH x 1-1.5mW with thick green leaves. Conspicuous flowers are white with red styles. The bizarre shaped fruit resemble a rams head, when opened. Likes a well-drained soil and some sun. Lightly prune regularly.

Hakea multilineata (maroon & cream)

Outstanding large upright shrub 3-4mH x 2mW. Long narrow stiff leaves and spikes of vivid maroon and cream flowers in winter and spring. Draining soils in filtered or full sun. Grow with other plants. Bird plant & tall hedge.

Hakea obtusa

Rounded shrub to 2mH x 1.5mW, with blunt elliptical leaves. Copious bright pink flowers on old growth in spring. For well-drained soils and most aspects. Prune lightly. Good ornamental screen plant.

Hakea petiolaris

Tall shrub 3mH x 2mW with rounded grey-green leaves. Green/pink sea urchin flowers aging to cream/maroon in autumn and winter. Needs reasonable drainage and plenty of sun. Prune lightly. Very ornamental.

Hardenbergia violacea

Ground cover or trailing plant to 1.5mW with lance-shaped leaves. Masses of purple flowers in spring. Full sun to partly shaded draining position. May be pruned hard. Not for frost hollows.

Hardenbergia violacea (white)

Groundcover or trailing plant to 1.5m-2mW with lance-shaped leaves. Masses of white flowers in spring. Full sun to partly shaded well-drained position. May be pruned hard. Some frost damage. Not for frost hollows.

Indigofera australis

Open spreading shrub 1.5-2.5mH x 1-2mW with blue-green leaves. Mauve-pink pea flowers in spring. For dry or moist well- drained soils in part sun. Prune after flowering. Colonizer.

Kennedia nigricans

A vigorous climber or ground cover with lobed dark green leaves and attractive black and yellow pea flowers. Fast growing, useful for quick coverage of ugly fences or banks. Hardy plant, tolerant of drought, light frost and shade.

Kennedia procurrens

Groundcover to 1.5-3mW with round leaves in threes. Lovely large purple pea flowers borne above from November to March. Adapts to a wide range of soils. Prune lightly. Frost hardy.

Kunzea parvifolia

Spreading plant 2mH x 2mW with tiny heath like foliage. Very pretty mauve fluffy flowers in spring. For most soils in full or filtered sun. Spring spectacle. Very hardy.

Leionema elatius x lamprophyllum

Medium shrub to 1.5mH X 1.5mW, with small round dark green leaves. Heads of white flowers in winter/spring. Suitable for draining soils in sun and dappled shade. Wonderful small hedging plant.

Melaleuca elliptica

Medium shrub to 2.5mH x 2.5mW with small elliptic leaves. Burgundy bottlebrush flowers Nov-March. Wide range of well-drained soils in a hot sunny site, tolerating some shade. Good screening plant. Prune to shape.

Melaleuca thymifolia

Small rounded shrub to 1mH x 1mW with small grey elliptic foliage. Purple, pink or white claw flowers in late spring to autumn. Hardy plant in sunny site. Enjoys moist position but tolerates dry. Prune after flowering.

Myoporum parvifolium

Prostrate ground cover to 1.5-2mW with narrow fleshy leaves. White star flowers in spring and summer. Hardy in most soils in a well-drained sunny to semi-shaded position. Attractive hardy plant.

Pittosporum angustifolium

Previously *P. phylliraeoides*. A weeping small tree 3-8mH x 1.5-3mW, pendent green leaves. Flowers scented, cream to yellow June- Nov, followed by showy fruits. For most soils in a shady or sunny site. Frost hardy.

Prostanthera granitica

A spreading shrub 0.6mH x 2mW with small harsh leaves. Showy purple flowers from Aug-Dec. Likes a well-drained soil with dappled shade to partial sun. Some overhead cover appreciated. Prune after flowering.

Rhagodia spinescens

Spreading grey leaved plant 0.5m-1mH x 2mW with fire resistant foliage. Grows in most soils in sunny sites. Responds to pruning. Good low maintenance hedge or ground cover. Toughy. Contrast plant. Edible berries.

Spyridium scortechinii

Syn *Cryptandra scortechinii*. Rounded shrub 0.7mH x 0.6mW with narrow oval foliage. Woolly heads of white flowers with shiny brown bracts in late winter to spring. Well-drained soil in full sun or half shade.

Kunzea ambigua (prostrate)

Low growing 0.5mH x 1.5mW. Narrow leaves, white fluffy fragrant flowers in crowded clusters along stems in spring and summer. Hardy in most soils with good drainage in full or part sun. Attracts butterflies.

Kunzea pomifera

Muntrie - Prostrate woody shrub, spreads to 1.5mW, with small shiny round leaves and feathery white flowers in late spring. Purplish edible berries. Needs full or part sun and reasonable drainage. Popular bush food plant.

Leptospermum 'Pink Cascade'

Small shrub 0.5-1mH x 1-1.5mW, dark green pointed leaves. Reddish buds open to pink flowers in spring & often in autumn. It is adaptable in most soils in sun & semi-shade. May be clipped or pruned.

Melaleuca lateritia

Erect shrub to 2mH x 1mW with small linear leaves. Large orange-red brush flowers in late spring and summer. Hardy in well-drained soils, but likes lots of water. Flowers best in full sun.

Mentha satureioides

Clumping ground cover herb. Small white to lilac flowers summer & autumn. For sun or shade in moisture retentive soils. Good in pots. Prune to rejuvenate.

Philotheca 'Winter Rouge'

Small shrub .8mH x .8mW with slightly warty foliage. A profusion of white flowers follow pretty pink buds from winter to spring. For draining neutral to acid soils in sun to part shade. Prune to keep bushy.

Poa labillardieri

Tussock forming grass to 0.8mH with narrow greyish leaves. Plume-like heads of flowers on long stems. Will flourish in most situations. Frost hardy

Pycnosorus globosus

Syn *Craspedia globosa*. Drumsticks. Robust tufty plant to 0.3mH x 0.3-0.5mW with silvery, linear leaves. Large yellow flower heads to 0.8mH in spring & summer. For most soils in sun.

Sollya heterophylla Blue

A vigorous climber or twining shrub, to 3mH. Lovely blue bell flowers in clusters throughout year, mainly July to March followed by fleshy green fruits. Accepts moderate to good drainage in alkaline and acid soils. Frost hardy.

Swainsona galegifolia (burgundy)

Upright plant to 1.5mH with many stems of pinnate leaves. Sprays of burgundy pea flowers spr/sum/aut. For most soils (not wet) in sun. Prune old stems after flowering.

Tetragonia tetragonioides

Native Spinach. Prostrate sprawling shrub 0.5-1mH by 2mW. This bush tucker plant is like spinach, blanch before eating. It grows throughout the year, regular harvesting keeps plant vigorous. Draining soils full sun to shade.

Thelionema caespitosum (white)

Tufted plant with grass-like leaves 0.3m long. White star flowers on slender branched stems in summer. Relatively well- drained position in good sunlight. Does well in containers or open ground.

Thomasia sarotes

Low shrub 0.8H x 1mW with rough textured grey leaves. Very pretty pink/purple small pendulous flowers in spring & autumn. For light to medium soils in sun to semi-shade. Attractive in containers or rockery.

Viola silicestris (blue)

Sandstone Violet. Small spreading ground cover forming extensive mats in damp areas. Round leaves. Blue flowers for long periods. Hardy in full sun to full shade. Dies back in winter. Useful for hanging baskets.

Thelionema caespitosum (blue)

Tufted plant with grass-like leaves 0.3m long. Deep blue star flowers on slender branched stems in summer. Relatively well- drained position in good sunlight. Containers or open ground.

Thelionema grande

Tufted plant to 1.2mH x 0.3mW, with broad strappy leaves. Blue star-like flowers appear on slender branched stems in spring. For light to medium soils in sun or part shade. Very frost hardy.

Viola hederacea

Native Violet. Small spreading ground cover forming extensive mats in damp areas. Round leaves. White and purple violet- shaped flowers for long periods. Full sun to part shade. Dies back in winter. Useful for hanging baskets.

Westringia fruticosa 'Smokie'

Small shrub to 0.6-1.3mH x 1.5mW. Silver- grey leaves with cream edges, white flowers in spring and summer. Hardy for most conditions in full or part sun. Very attractive rockery plant.
